

## Accessories, cont'd

### i SERIES REMOTE SENSORS

Remote Indoor (9020i) and Outdoor (9025i) Sensors (use with i-series only).

The sensors are designed to sense air temperature at a remote location and send this information to the thermostat.

- Installs with simple twisted pair wiring.
- Automatic configuration with i-series thermostats.
- Up to 300 ft. range.

**Compatible with:** 9700i series, 9800i series, 9850i series, 9900i series

Uni-Line Part No.	Canadian Model No.	Description	Temperature range
9020i	C9020i	Indoor Sensor	
9025i	C9025i	Outdoor Sensor	-40° to 158°F (-40° to 70°C)

### REMOTE SENSORS

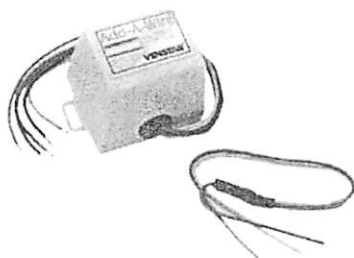

The sensors are designed to sense air temperature at a remote location and send this information to the thermostat.

- Can be interconnected with up to six indoor sensors for temperature averaging.
- Stylish design complements any decor, can be interconnected with up to six indoor sensors for temperature averaging.

10-528

Uni-Line Part No.	Description	Compatible with
10-528	Indoor Sensor	300 Series
10-529	Outdoor Sensor	300 Series

### ADD-A-WIRE

10-546

Uni-Line Part No.	Application	Comments
10-546	Allows 5 wire thermostats to be connected to 4 wires	Can also be used to repair broken wires.
