4700-056	5	24"	NO. 43 ORIFICE CAP & 1/8" PIPE		SOUTH BEND 1020499

*Includes a 7/16" Tube to 1/4" Pipe Adaptor.

✓ Obsolete - available to stock on hand.

NOTE: Models used with timer systems are no longer available. An alternative to scrapping the range when an exact replacement control is no longer available is to replace the control with a model that does not incorporate a heat motor. While the timer system actuated programmed cooking feature is lost when a non heat motor thermostat is used, all other temperature control and safety features are maintained.
