

## 5210 (B-10) COMMERCIAL DIRECT ACTING

The 5210 Series are SPST direct acting thermostats with a special switch design which makes them very sensitive to small temperature changes. Differential will vary with the control application but will be extremely close when the bulb is immersed in a liquid. When the bulb is located in air, the differential will depend upon the rate of heating and cooling. The slower the rate the closer the differential. U.L. file number E12103.

**Electrical Rating:** 20 amp at 120 VAC resistive load, 15 amp at 240 VAC resistive load  
**Maximum Ambient Temperature:** 150°F

5210 SERIES

Uni-Line Part No.	Dial Temp. Range	Cap. Length	Bulb O.D. Length & Finish	Dial Type Included	Factory No.	Comments
5210-020	0-140°F	60"	3/16" x 15-3/8"	Knob & Plate	Z66272	1-10 Plate
5210-125	60-200°F	42"	3/16" x 15-3/8" Nickel	Consider 40-463 dial 60-250° if needed	Z87147	Alto Sham TT-3057
5210-124	60-210°F	36"	3/16" x 15-3/8" Nickel	Consider 40-463 dial 60-250° if needed	Z90644	
5210-152	60-250°F	60"	3/8" x 4-1/2"	4-Way	Z80885	
5210-248	100-450°F	24"	3/16" x 11-1/2" Nickel	4-Way	Z91269	Dip Sealed
5210-312	100-450°F	36"	3/8" x 3-7/8" Nickel	Knob & Plate	Z14131	1-10 Plate
5210-363	150-550°F	72"	3/16" x 10-7/8" Nickel	4-Way	Z82847	1-10 Dial
5210-401	150-550°F	48"	3/16" x 11-5/8" Nickel	Knob & Plate	Z11861	
5210-471	275-470°F	30"	1/4" x 12" Nickel	1-10 Dial	Z65910	Nickel stuffing box attached. Limited to stock on hand.
